

Jenny Wang

CONTACT

jennyw2@andrew.cmu.edu
(408) 500-9167
[himty.github.io](https://github.com/himty)

EDUCATION

Carnegie Mellon ('22-'24)
3.75 GPA
Robotics Institute (MSR)
UC Berkeley ('18-'22)
3.91 GPA
Computer Science (BA)

SKILLS

- Teamwork
- Machine Learning
- Planning in Manipulation Locomotion
- Computer Vision
- AWS, SSH, Git
- Project life cycle
- Scrum development

LANGUAGES

Python, C, MATLAB,
Java, Javascript

LIBRARIES

PyTorch, PyBullet,
OpenCV, CARLA, ROS,
Linux, CUDA

COURSEWORK

- Deep RL
- Data Structures
- Visual Learning and Recognition
- Mechanics of Manipulation
- Feedback Control Systems
- Optimization Models
- Machine Structures

AWARDS

- Uber Presidential Fellowship (2024)
- Western Digital Scholarship for STEM (2019, 2020)
- The President's Volunteer Service Award (2012-2017)

PUBLICATIONS

- Wang, J.*, Donca, O.*, & Held, D. (2024). [Learning Distributional Demonstration Spaces for Task-Specific Cross-Pose Estimation](#). *IEEE International Conference on Robotics and Automation*.
- Ohlson, G., Bonilla Fominaya, A. M., Puthuveetil, K., Wang, J., Amspoker, E., & McCann, J. (2023, October). [Estimating Yarn Length for Machine-Knitted Structures](#). In *Proceedings of the 8th ACM Symposium on Computational Fabrication* (pp. 1-9).
- Rhinehart, N., Wang, J., Berseth, G., Co-Reyes, J., Hafner, D., Finn, C., & Levine, S. (2021). [Information is Power: Intrinsic Control via Information Capture](#). *Advances in Neural Information Processing Systems*, 34.

EXPERIENCE

Graduate Technology Intern in R&D June 2024 - Present
Walt Disney Imagineering

- Researching generative deep learning planners for interactive experiences between guests and mobile robotic characters.

PhD Student Aug. 2022 - Present

Robots Perceiving and Doing (RPAD) Lab w/ David Held

- Earned Master of Science in Robotics (Spring 2024)
- Researched generative, SE(3)-equivariant point cloud models for imitation learning in robotic manipulation.

Undergraduate Researcher Sept. 2019 - Aug 2022

Robotic AI and Learning Lab (RAIL) w/ Sergey Levine and Nick Rhinehart

- Researched intrinsically-motivated reinforcement learning agents in partially-observed, dynamic environments.
- Experimented in Real2Sim transfer in autonomous driving with various representations and Deep Imitative Models.

Perception Team Task Manager Aug. 2018 - Dec. 2020

Underwater Robotics at Berkeley

- Coordinated efforts for a simulator using Gazebo, ROS, Docker.
- Researched object detection, underwater stereo odometry with camera calibration, adaptive color thresholding, and more.
- Helped present about Visual Position Estimation at CalHacks 5.0.
- Recruited members with Piazza posts and class announcements.

Amazon SDE Intern Summer 2019, 2020

Amazon

- Launched tools' file editing and management portals, including frontend, serverless backend, and user authentication.
- Tools: ReactJS, NodeJS, Jest, HTTP, Lambda, Route 53, CORS
- 1st place hackathon team of 4- Alexa skill guiding conversations for parents, students, and teachers in Seattle Nativity School.

Research Intern Summer 2017

Biomicroscopy Lab at Boston University

- Identified cell signatures for the paper [High-throughput label-free flow cytometry based on matched-filter compressive imaging](#)

Research Intern Summer 2016

The Whitney Laboratory at UC Berkeley

- Confirmed retail brand's effects on ensemble coding.

OTHER ACTIVITIES

<i>Workshop Organizer @ IEEE International Conference on Robotics and Automation</i>	2024
for <i>3D Visual Representations for Robot Manipulation</i>	
<i>Volunteer Clarinetist for 2021 Explore Martial Cottle Park</i>	Fall 2021
<i>Reader for EECS189</i>	Spring 2022
<i>Reader for EE120</i>	Fall 2021
<i>Tutor for CS61A and EECS16A</i>	Fall 2020
<i>Academic Intern for CS61A</i>	Spring 2019
<i>Volunteer for San Jose Bubble Run</i>	Spring 2019
<i>Clarinetist in the University Wind Ensemble</i>	2019 - 2020
